Marlux®
The world's Best Selling
Fast-Fit Disposable Curtains

Designed for use with the Marlux® Disposable Curtains, the Marbast® Fast-Fit Cubicle Curtain Track is ideal for hospitals, medical centres, health centres, doctors' surgeries and nursing homes.

Manufactured from high quality aluminium, the Marbast® Fast-Fit Cubicle Curtain Track is an effective and easy to install system. Available in a white powder coated finish as standard.

The Marbast® Fast-Fit Cubicle Curtain Track system can be shaped to satisfy every possible configuration of bedded areas.

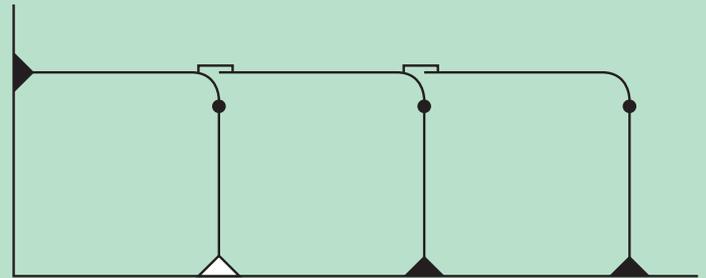

Features

Marbast® Fast-Fit Cubicle Curtain Track:

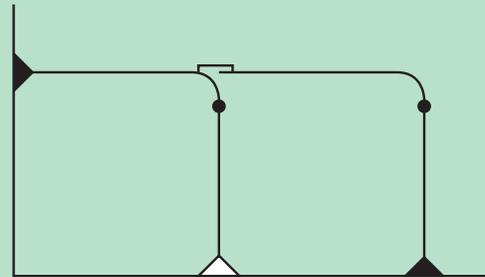

- Marbast® Fast-Fit Cubicle Curtain Track enables curtains to be changed easily and quickly.
- Easy to install.
- Manufactured from high quality aluminium to BS EN 755 in a white powder coated finish as standard, requiring the minimum of maintenance.
- Conforms to the design guidance of the HTM 66.
- Can be shaped to satisfy every possible configuration of bedded areas.
- Lengths range from 2 – 6.5 metres and a variety of factory formed radii are available to suit the individual needs of each installation.

TYPICAL LAYOUTS

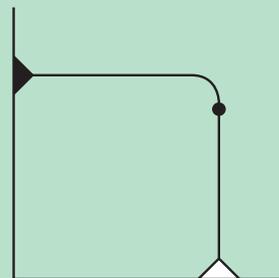

Three Bed Lay-Out

Two Bed Lay-out

Single Bed Lay-Out

● C400 - Vertical Support Hanger

▲ C200/3 - Wall Support Bracket

┌ C100/7 - Front Link Plate

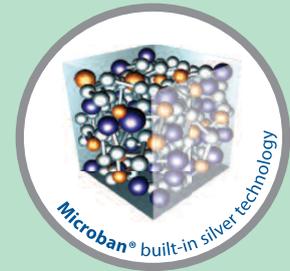

△ C200/2 - Adjustable Wall Bracket (Curtain Loading Point)

Microban 3G Silver™

The Microban portfolio of antibacterial technologies includes a new line of third generation silver-based technologies. These “3G” silver technologies offer efficiencies that will help to keep products more hygienic by working continuously to prevent the growth of bacteria.

- Provides continuous antibacterial efficacy
- Inorganic and highly temperature stable
- Does not contain silver nano-particles - Microban antibacterial technology is not based on nano-technology

Fixing

- A variety of brackets are available for securing the Marbast® Fast-Fit Cubicle Curtain Track to the wall.
- Lateral stability in all cubicle layouts is essential to eliminate weakening the wall and ceiling fixings. Therefore where it is not practical to fit tie bars a combination of vertical, angled and 'V' supports are introduced to give the required lateral support.
- When the Marbast® Fast-Fit Cubicle Curtain Track is fixed to or through a suspended ceiling, an additional ridged fixing pad is introduced directly above the ceiling tile, to which the vertical supports are fixed.

Maintenance

The Marbast® Fast-Fit Cubicle Curtain Track is made from high quality maintenance free materials. All that is required is an occasional clean with a moistened cloth followed by wiping the glide channel with a silicone wipe.

Other Related Products

Anti-ligature Magnetic release systems

- The Marbast® Fast-Fit Cubicle Curtain Track system incorporating the Marbast® suspension brackets, play a vital role in helping to prevent patient self harm in acute psychiatric and other high risk ward areas.
- The connector is designed to uncouple automatically in the event of an abnormal load, yet is easy to re-couple once the load is removed.
- This product should only be installed by trained and qualified operatives. Marbast® is happy to undertake this work.

Marbast® Fast-Fit Window Curtain Track

- The Marbast® Fast-Fit Window Curtain Track White powder coated, 'Fast Fit' track rail section is manufactured from aluminium to BS EN 755. It perfectly complements the cubicle track and offers the opportunity to fully co-ordinate cubicle curtains with window curtains.

Disposable Hospital Curtains

Marlux® Disposable Hospital Window and Cubicle Curtains:

- Comply with the fire retardancy standards of BS5867 Part 2 type C.
- Available in 4 aesthetically pleasing colours.
- Provide patient privacy.
- Give a fresh clean appearance, offering an improved patient environment, incorporating the Microban 3G Silver™ Technology
- Provide effective infection control, as the curtains are quick and easy to change.
- Cost effective.

Marlux® Adaptatrack

- Existing cubicle tracks can be easily and conveniently converted to enable the use of Marlux® disposable curtains with Marlux® Adaptatrack. Contact Marbast® for more details.
